An Advanced Fluid-based Non-Lethal Riot-Dispersing Mean

PRESENTED BY TAR

SKUNK

Skunk - Main Features:

- The Skunk is a new and innovative Israeli technology, based on the operational needs of law enforcement forces in the State of Israel.
 - The Skunk is economic in use and a cheap substitute to special munitions and other means which are used for riot-dispersing. Using The Skunk requires fewer officers in an event, achieves the desired public-order and saves significantly on expenses.
 - The Skunk is a product of long-years of highly invested research aiming for an effective, non-dangerous and environment-friendly material.
 - The Skunk is environmentally-green, Non-toxic, made of organic materials and is harmless to humans or the environment.
 - The Skunk passed all the required tests that were defined by the Israeli Ministry of Environmental Protection and was classified as a non-dangerous and non-toxic material.
- The Skunk is non-explosive, non-flammable, medically-safe and could even be used for extinguishment. Unlike any other riot-dispersing product, The Skunk is totally NON-lethal (and not less-lethal).
- The Skunk is designated to be an alternative to riot-dispersing by force or violent means.
 - When The Skunk is activated, the inconvenience caused by its repulsive odor is far superior to any physical and other violent means used.
 - The effect of The Skunk is temporary and passes without any trace. The protesters clothes can be used immediately after laundry.

**GAS PROJECTILE CS/OC
